DIRECTIONS FOR USE:

This professional quality turf fertilizer is formulated for use on Fairway Turfgrass and other quality turf areas.

Apply on a calm day when the grass is dry, using a properly calibrated spreader.

Faster greening will result if the fertilizer is watered in after application.

Avoid mowing the area immediately after fertilizer is applied to avoid mower pick-up.

This quality fertilizer formula provides primary plant nutrients for all types of turfgrass. It promotes a lush green color and stronger root systems, and helps you nurture a vigorous turf that looks great even in heavy traffic areas.

SPREADER SETTINGS: Spreader settings are approximate and may vary according to condition of your equipment. Calibrate your spreader before use.
